Please request Self Measuring Chart for made to order clothing	

SIZING ADVICE

Drivers Jackets, GWR Jackets, Prep Coats. Measure your chest size over a shirt and medium weight pullover, to give comfortable air circulation in summer, and room for a pullover in winter. Drivers Jackets with Extra Long Arms can be made to order.

Bib & Brace. Measure your waist/tummy over the trousers you will wear underneath, and allow a bit of slack, for leaning over, coupling on, and other button popping activities. A useful guide is to measure over your waist plus wrist, whilst you have your hand in your back pocket, simulating getting your wallet out by reaching through the Bib & Brace waistband. For taller customers, Bib & Brace can be supplied with un-hemmed longer legs, for self finishing.

GWR Footplate Trousers. Are worn instead of Bib & Brace over top of ordinary trousers. They have pocket access slits. High waist with belt loops, and buttons for braces. Measure your waist/tummy over the trousers you will wear underneath, and allow a little bit of slack, for leaning over, coupling on, and other button popping activities.

Hats. Measure the circumference of your head in centimetres, just above the ears, where you want the hat to fit snugly. If you are halfway between sizes, go for the larger size, and fit some padding behind the inner leather band.

Firing Jackets, Reefer Jackets, Guards and Station Staff Uniforms, are clothing made to order. For these items only, please E Mail info@footplateequipment.co.uk, to request a Uniform Self Measuring Chart.
